

## URBAN PLANNING - TRANSPORT

# URBAN COMMUNITY OF LYON, DÉCINES-CHARPIEU (69), FRANCE EXTENSION OF T3 TRAM LINE

### PROJECT DETAILS

#### CONNECTION OF THE THIRD TRAM LINE (T3) WITH THE GREAT STADIUM OL LAND

Urban design of the extension of the third tramway line in order to connect the city centre and the new football stadium: layouts of new public spaces on 1.5 km with landscaped grounds.

Design of a 137m-long underbridge that fits in like an underground boulevard.

Architectural design of a building dedicated to tramway drivers that is used for observation and operating service offices and also includes a break room.
