SPATIAL PLANNING
BERLIN, GERMANY

MASTERPLAN FOR THE "SCHUMACHER QUARTIER"

PROJECT DETAILS
COMPETITION FOR THE MASTERPLAN OF AN AIRPORT WASTELAND IN BERLIN

This residential area is integrated in the redevelopment of the Berlin Tegel airport. The project’s origin is found in its natural geographic context by creating a green connection inside of the new urban area.

The typologies are based on the structure of the Berlin blocs and create a succession of various volumes, densities and visual connections.

CLIENT
➤ City of Berlin

PROJECT MANAGEMENT
➤ URBANICA, architects & town planners
